ONLY TWO MORE DAYS

Amendment Stage of the Dingley
Tariff Bill About Exhausted.

VOTING TO BEGIN WEDNESDAY.

Probably No Breaks in the Republican Ranks But Four Democrats Will Vote For the Bill—Senate Will Devote Its Energies to the Arbitration Treaty. Secretary Sherman Ill.

WASHINGTON, March 29.—Two more days will see the end of the struggle over the Dingley tariff bill in the house. The bill will be open for amendment until 1 o'clock on Wednesday when the debate will close with two hours' display of oratory. The voting will begin at 8 o'clock on that day. So far as known there will be no break in the Republican ranks, but at least four of Democrats will brave the party whip and cast their votes for the bill, three from Louisiana and one from Texas. There is also a probability that one Populist and one silverite will vote for this protective measure. Mr. Dingley, who has engineered the bill through the eddies of debate, will devote his energies to pressing the consideration of the bill in order to complete it before the vote is taken. But the Democrats are pursuing a course which has thus far rendered progress extremely difficult.

But 14 of the 163 pages of the bill were disposed of in the two days of last week. At this rate it would require 21 days for the house, sitting seven hours a day, to complete the consideration of the bill under the 5-minute rule. If the present tactics of the opposition are persisted in it is not improbable that night sessions will be held today and tomorrow. The policy of the Democrats thus far has been to attack every item and make it the text for general assaults on the bill. It is understood that they will make a particularly strong stand against the steel and sugar schedules. They do not hope to accomplish anything, however, in the way of amendment. They have made trusts the keystone of their opposition up to this time and the only thing which they really believe they can accomplish is to secure a record vote on an amendment such as was offered on Friday, providing for the suspension of the duty on any article controlled by a trust or combination.

The fact that the reading of the bill may not be completed under the 5-minute rule will in no wise interfere with the power of the ways and means committee to perfect it. Their amendments are in order to any part of the bill at any time, and when it becomes apparent that the bill cannot be completed Mr. Dingley can assume charge and clear up all the amendments he desires to offer. After the tariff bill is passed on Wednesday the house will probably adjourn three days at a time until the appropriation bills are returned to it.

Forecast of Work in the Senate.
The senate will devote its energies this week to the arbitration treaty with the vague hope on the part of its friends of securing a final vote on Friday or Saturday. Voting on the miscellaneous amendments begins Wednesday. The consideration of amendments is to continue to Thursday, providing new ones are offered after Wednesday's proceedings. Later than that day the senate procedure is not clear. Consent to naming a date for the vote on the treaty itself is still withheld and will not be given until after the fate of the amendments become known.

The appropriation bills are expected to be reported to the senate sometime tomorrow but they will not be taken up in the senate until the treaty is disposed of. The question of organizing the committees continues to press for attention and may reach a climax during the week. The tariff bill will reach the senate late in the week and be referred to the committee, which, however, already has the various schedules under consideration.

Smallpox and Yellow Fever in Cuba's Capital.

WASHINGTON, March 29.—Under the date of March 20 Sanitary Inspector Burgess of the marine hospital service at Havana reports that smallpox continues in active epidemicity, the number of deaths from it in the past week being a little more than in the previous one. A number of deaths from yellow fever have occurred in the military hospitals among Spanish soldiers and one civilian died of it in the city, near the Cathedral. Intestinal disease is quite common. During the week ended March 18 there were 10 deaths from yellow fever and 550 new cases of smallpox, with 91 deaths.

The cargo consisted of 6,000 rifles of improved pattern, 8,000,000 cartridges, one Colt machine gun, one dynamite gun, two 12-pounders, and four tons of dynamite and bombs. It was landed at Banes. WORK OF A CYCLONE

Austin, Tex., Visited by a Terrible Twister.

GREAT DAMAGE TO PROPERTY.

Houses Raised From Their Foundations, Turned Around and Set Down Again. Lumber Yards Blown Away and Churches Crushed—Three People Fatally Hurt at Calvert, Tex.

AUSTIN, March 29.—Late yesterday this city and the surrounding country was visited by a terrific cyclone that did no end of damage to life and property. The wind came from the southwest and blew at about 60 miles an hour for nearly 20 minutes, tearing down trees or splitting them asunder with terrific force. Several large electric light towers were blown down, entailing a loss of some \$4,000 or \$5,000, inasmuch as the iron frames were twisted as though they were of the very smallest wire, and will be useless. In addition to this quite a number of houses in the residence portion of the city were blown down, and in several cases narrow escapes from death are reported.

A new and unoccupied residence was blown down, striking against the residence of William Vining, knocking in one side of the building and narrowly escaping killing two little children that were in the room playing. The wind played havoc with several lumber yards in the eastern portion of the city, blowing piles of lumber in every direction and scattering ruin and waste on every side. The roofs of a number of residences were torn off and blown in a great distance, and in addition to doing much damage to the state university the wind blew off the entire roof of the adjoining dormitory, letting the rain drive full in to the 4-story building, doing inestimable damage to the building and property of the 200 students therein, many of whom fled for their lives when the roof was carried away. The roof was carried 100 yards, lighting on and crushing the roof of a cottage in which four people were seated, but none were even injured, though they were entombed by falling debris. One side of a church was blown in and unroofed, the wind carrying the roof a block away.

The residence of Dr. Graves was lifted from its foundation, twisted completely around and settled down in the same place, so badly damaged, however, that none of the doors could be opened to permit the escape of the frightened inmates.

The town of Clarksville, near here, was swept by the winds and many horses were killed by flying debris, while a number of small houses were blown down though fortunately the inmates were not killed but several were badly maimed. With the terrific wind came a driving rain that was little short of a flood and swept everything before it. Persons arriving on the evening trains tell, and reports from the surrounding country are to the effect that the storm was general in this section.

The small town of Buda was badly handled by the storm, quite a number of houses being blown down and one or two persons killed, though their names are not obtainable, owing to the fact that most of the telegraph wires are down and news is very meagre. This is the worst storm that has ever visited this section and it has laid waste everything in its track, though fortunately, so far the reports of deaths resultant are few. The storm was over in an hour and the sun came out as brightly as though nothing had happened.

KENTUCKY POLITICS.

Samuel J. Roberts and Secretary Taylor Hold Conference on Senatorial Situation.

FRANKFORT, Ky., March 29.—A large number of legislators and politicians, who had spent Sunday at home, returned last night and the situation is again full of interest. Mr. Samuel J. Roberts, late chairman of the Republican campaign committee, and generally regarded as McKinley and Hanna's personal representative in Kentucky, arrived from Lexington last night and was ushered into a conference with ex-Secretary of State Sam W. Taylor of Ohio, which lasted till a late hour. The conference is supposed to have related to the dual subject of Hunter's election, if possible, and the substitution of a new candidate if Hunter does not win on the next ballot or two. The anti-Hunter men in the legislature gave out a statement explaining more fully their grounds of opposition to Hunter. The anti-Hunter leaders claim that they will have one and probably two accessions from the Hunter ranks today. At any rate an election on today's ballot is not considered possible.

BATTLESHIP IOWA.

She Left Cramps Today Preparatory of Her Trip.

PHILADELPHIA, March 29.—The big sea going battleship Iowa left Cramps' shipyard today for her official trial trip off the New England coast. She proceeded directly from this city to the Brooklyn navy yard and will reach there some time on Wednesday. There she will be promptly placed in dry dock, and on the following morning a force of workmen will begin to scrape her bottom and give her a fresh coat of paint.

It is expected that the Iowa will leave next Saturday for Boston, where she is scheduled to arrive the following Monday. The arrangement of necessary details will occupy Monday and Tuesday and the official trip over the government course between Cape Ann and Cape Porpoise will occur Wednesday.

Southern Footest Dead.

BALTIMORE, March 29.—Mrs. Margaret J. Preston, the well-known writer of southern war poetry, died here yesterday at the residence of her son, Dr. George S. Preston.

Joseph Blanner, murderer, wanted in San Francisco, died Tuesday from the effects of morphine taken with suicidal intent while in jail at Houston, Tex.

President McKinley yesterday gave a reception to the newspaper correspondents and representatives of the Washington local press. About 150 were in attendance.

FEAR ANOTHER OUTBREAK.

Minister Terrell Asks For a Guard For American Missionaries' Residences.

CONSTANTINOPLE, March 29.—Owing to fears of further disturbance in the vilayet of Sivas, United States Minister Terrell has asked the porte to resume the military guards at the residences of the American missionaries. There is a feeling of uneasiness here because of the rumor that the Armenians who participated in the attack of the Imperial Ottoman bank have returned to the city. The fact that the authorities have materially increased of late the military precautions against outbreak, indicates that they share in the feeling of apprehension.

Instantly Killed by a Live Wire.

NEWARK, N. J., March 29.—Policeman John Clark attempted to dislodge a dangling telegraph wire which rested against an iron post yesterday. MARION BRIBERY CASES.

Adjournment Taken to Allow State to Prepare Rebuttal Evidence.

MARION, Ind., March 29.—The court late Saturday adjourned the Baldwin bribery case over until tomorrow. The defense had rested their case, and the prosecution was not ready to proceed with rebuttal testimony because of the absence of Pheneas Howard. Finally the defense agreed to let Howard's testimony, as given before the grand jury, be submitted to the jury, and the adjournment was taken to allow the state to prepare its testimony. Crum and Evans, who were here as witnesses, were returned to the penitentiary, but may be brought back tomorrow.

WORLD'S CROPS.

What a Report by the Secretary of Agriculture Will Say.

WASHINGTON, March 29.—The world's wheat crop for 1896 is 2,428,393,000 bushels. This fact will be officially announced by the secretary of agriculture in a report to be issued this week. This important report will also cover the quality and distribution of the corn, wheat and oats grown in the United States during the past year.

Although the total wheat crop is 118,000,000 bushels less than in 1895, it is larger than earlier estimates indicated. This is largely due to an increase of 59,000,000 bushels in European Russia, as shown in the final estimate of the central statistical bureau over the November estimate of the minister of agriculture of that country. The crop for 1896 is the smallest for six years.

He has contracted for 27,000 barrels of fancy, kiln dried stock that will keep for months, and has stored them awaiting an advance in price. Many wholesalers needing immediate orders have been compelled to pay \$3.50 a barrel for the same stock which previously to the present scarcity could have been bought for \$1.75 and \$2.25.

Putrefaction developed in his feet at least two months ago and the doctors were compelled to amputate one of his feet. A few days ago they removed the toes from the remaining foot. Heart Disease Cured.

WHEN a well known minister after suffering for years with heart disease, is cured, it is not surprising that he should publish the fact for the benefit of others. Rev. J. P. Smith, 1045 Fulton St., Baltimore, Md., writes: "For years I suffered from a severe form of heart disease. I used Dr. Miles' New Heart Cure, and my heart is now in good condition. Recently, other ailments came upon me. There was humming, painful sensations on top and back of my head. Fifteen minutes reading would make me almost wild; there were pulling and drawing sensations in my legs all the time, so that I could not sit still. In this condition I began taking Dr. Miles' Restorative. Nervine and its effect was simply wonderful. I heartily commend your remedies."

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

The Japan gold standard bill has become a law.

Fish Commissioner Sweeney is getting plans ready for the apprehension and conviction of men who violate the first laws of the state.

The Mitchell Commercial contains a very creditable write up of the business interests of that thriving town. The Commercial seems to be prospering under its new management.

The democrats in Congress are at their old tricks again. They are right in their element when obstructing legislation, but with Speaker Reed in the chair they have never been able to accomplish much in this role.

Those who are now opposing the Dingley tariff bill by saying that it will "oppress the poor," should rise to a question of personal privilege and state in the interest of humanity how the Wilson bill, "a tariff for revenue only," helped the poor man.

The Kentucky legislature has already consumed too much time trying to elect a United States senator. The republicans down in Kentucky would profit by presenting a united front against democracy instead of spending so much energy fighting each other.

St. Louis' bank clearances were about 8 per cent greater in the week just ended than they were in the same week last year, and they have made an approximately equal gain in the month thus far. This is an encouraging indication. In this city at least there is some tangible business improvement.—Globe Democrat.

Soms of the men who approved the Wilson revenue bill, and even some of those who voted for it pretend yet to know something about tariffs. They have a greater supply of courage than they have of judgement. The people are very little now for what they think.

The prison south will become the state reformatory April 1. Making this change in the prison system of Indiana the legislature acted wisely. It is an advance step and will unquestionably bring good results. This important piece of legislation is largely due to the sound notions concerning prison management of Warden Hert.

Secretary Gage told the executive committee of the Indianapolis monetary conference that he was fully convinced of the necessity of a monetary commission and that he thought such a commission should be appointed as soon as practicable. He stated further that there is "serious doubt of the expediency of allowing legislation to interfere with the consideration and prompt passage of a tariff measure."

As is well known Kansas has a populist legislature, and of course a populist speaker of the lower house. This speaker recently complimented his populist co-legislators by saying they "didn't know enough to get in out of the rain."

Out here the populists think that there is nothing about political and economic questions they don't know. Kansas has learned considerably from an over dose of populism.

Is the death of William T. Adams (Oliver Optic) the boys and girls of this country less a great favorite. To them who were the readers of his books, his stories were more than interesting and entertaining. They furnish much valuable information and besides strengthen their field of observation and strengthen character. Mr. Adams was a careful and painstaking writer. From a literary standpoint he might have done better work, but even then he could not have exerted a greater influence than through his many stories for boys and girls.

A CRY OF WARNING.

"I suffered for years and years with womb and kidney trouble in their worst forms."

"I had terrible pains in my abdomen and back; could hardly drag myself around; had the 'blues' all the time, was cross to every one; but Lydia E. Pinkham's Vegetable Compound has entirely cured me of all my pains."

"I cannot praise it enough, and cry aloud to all women that their suffering is unnecessary; go to your druggist and get a bottle that you may try it anyway. You owe this chance of recovery to yourself."—Mrs. J. STRICKLAND, 2218 Amber St., Kensington, Phila., Pa.

This season for planting shade trees is at hand again. But planting a street tree is not a task to be performed with out knowledge. The tree must be of a species adapted to street growth; it must be a vigorous tree with plenty of roots, though not necessarily large; must be planted in a hole large enough to accommodate all the roots naturally spread out; good earth must be supplied for the roots if it is lacking; and it must be kept from gnawing the trunk and strong enough to stand the wear and tear from street gamins. No one of these conditions can be safely omitted, but if all are observed the chances are twenty to one that the tree will grow rapidly, and in a few years become a thing of beauty. Seymour has cause to be proud of her shade trees. The addition to the value of real estate is not inconsiderable. Besides, we need a touch of nature to make residences still more attractive, "to improve the atmosphere, to lower the temperature in summer as well as to benefit the health of the community."

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, headache, indigestion, constipation, dizziness, yield to Electric Bitters. Try it once. 50c and \$1.00 per bottle at W. F. Peter's successor to J. H. Andrews & Co., Drug Store.

Rheumatism Quickly Cured.

After having been confined to the house for eleven days and paying out \$25, in doctor bills without benefit, Mr. Frank Dolson of Sault Ste. Marie, Mich., was cured by one bottle of Chamberlain's Pain Balm costing 25 cents and has not since been troubled with the complaint. For sale by C. W. Milhous.

KURTZ.

Measles are prevalent in and around Norman Station but of a mild form.

Linck Conner and Dale Thompson are refilling the approaches to iron bridges at this place. Ludake, of Sparksville, repaired the stone work.

I guess we will have good roads soon in Owen township if the voters do not vote it down. The surveyors have surveyed the different routes. All are needed.

William Smith, of Houston passed through here this week going to take the Call Williams' Bridge apart where it drifted on the farm of W. Medlock preparatory to rebuilding on its old abutments or some where else if they put an iron one in its place.

We hear it whispered around in different places that there is some prospect that the gravel road building in this and other townships will be postponed for a while on account of so much expense brought on people by the late floods.

NEWS IN BRIEF.

The Sultan of Morocco has prohibited the annual pilgrimage of Moslems to Mecca on account of the plague.

The Missouri Pacific has taken the initiative in cutting freight rates at Kansas City. The lower rates go in effect Monday.

The funeral of Colonel L. C. Baker, district superintendent of the Western Union Telegraph company at St. Louis, occurred at Little Rock Sunday.

President McKinley has assured the national commander of the Union Veteran league that he will review the parade of that organization in Philadelphia, April 3.

The Elms, the residence of Colonel A. C. Tyler, together with valuable bric-a-brac, musical instruments and silver, was destroyed by fire. Loss, \$300,000; insurance, \$75,000.

Anthony Marshall was found unconscious and two women dead in apartments in a New York block, all having been overcome by illuminating gas. Marshall died after being taken to the hospital.

The committee appointed by the French chamber of deputies to consider the question of prosecuting Deputies Naquet, Maret and Boyer for complicity in the Panama canal scandal, will authorize the prosecution.

The ministers of the powers held a conference yesterday and, it is stated, drew up the terms of a collective note to the Greek government requesting that the Greek troops be recalled from the frontier. It is understood that a similar note will be presented to the ports and that if either power refuses, its principal ports will be blockaded.

A meeting of the Cretan delegates will be held shortly at Athens to draft a reply to the admirals' proclamation of autonomy.

MAY BE A BIG STRIKE.

Master Steam Fitters of New York Practically Lock Their Men Out.

NEW YORK, March 29.—All the steam fitters and helpers employed by firms belonging to the Master Fitters' association received Saturday night the following notice on applying to the cashier for their wages:

Inasmuch as the agreement heretofore existing between the Master Fitters' association and the Enterprise and Progressive associations has been grossly violated by the last named associations the Master Steam and Hot Water Fitters' association has declared the said agreement null and void. Therefore each and every steam fitter or steam fitter's helper who wishes to continue in our employ is hereby directed to report at our shop on Monday morning, March 29, at 8 o'clock, and there agree to and sign our new rules before going to work.

The notice is tantamount to a lockout, and 60,000 men may be called out in a sympathetic strike.

Double Drowning.

PITTSBURGH, March 29.—A double drowning occurred at McKees Rocks, a suburb of this city, yesterday, when Willie Dewalt, aged 5, and Elmer, his brother, aged 10, were carried off by Charters creek. The little boys were playing on the creek bank and Willie slipped into the water and was carried rapidly down stream. Elmer, though unable to swim, heroically made an effort to save his brother, but was carried off by the swift current and both boys were drowned.

Chinese Mason Buried.

ST. LOUIS, March 29.—Lee Pon, grand recorder of the Chinese Free Masons in America, was buried here yesterday. His obsequies provided entertainment for 5,000 people and scared more horses than the police have any record of. Three Chinamen on horseback led the procession to the cemetery, sharing the honors of public notice with a Chinese band which played Confucian dirges and a German band which performed circus tunes.

Colorado Coal Combine Busted.

DENVER, March 29.—The northern Colorado coal operator's combine has been dissolved and the price of coal has dropped from \$4.00 to \$3.50 per ton. Coal operators regard this as serious. Many are of the opinion that wages will have to be cut and it is possible that a strike will occur in consequence.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, 75 cents. Hall's Family Pills are the best.

Few people know that all plants contain digestive principles. They cannot absorb their food until it is digested any more than animals can. The Mount Shakers have learned the art of extracting and utilizing these digestive principles, and it is for this reason that their Shaker Digestive Cordial is meeting with such phenomenal success in the treatment of dyspepsia. The Shaker Digestive Cordial not only contains food already digested, but it also contains digestive principles which aid the digestion of other foods that may be eaten with it. School closed here Friday and one of the best times ever had was enjoyed. The dinner prepared by friends and patrons was immense. People were there from miles around. In the afternoon a fine program was given that had been prepared by their efficient teacher, Miss Josie Robertson. All the pupils, patrons and friends regret to lose her from their midst. Music was furnished by Holmes Robertson, Everett Richards, E. L. Sewall and George Bennett. To say the least the whole arrangements was perfectly grand.

THE TIMES-STAR, Cincinnati, O.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; no more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

Inauguration Business.

Inauguration business of the B. & O. was not as large this year as it was four years ago, and the same holds true for the other railroads. From all that can be ascertained the B. & O. handled more people into Washington than any other railroad entering that city, and General Passenger Agent Scull has figured that 34,000 tickets were sold. Of this number fully 8,000 were sold in Baltimore on the morning of March 4th. D. F. Maroney, superintendent of transportation reports that commencing on the morning of March 1st and ending at 3:30 p. m. March 4th, exclusive, the B. & O. ran into Washington 154 scheduled trains with 123 extra cars, and 108 special trains with 771 cars.

THE MAJOR'S ROMANCE.

It Turned on Sixteen to One, but Was Not Political.

Major Culpeper is not his name, but that will suffice for the little romance involved.

He is a courtly old beau of Virginia breeding, and he is also a courtly old bachelor, quite old enough to know better, and, he does know better, but with him knowledge is not power, and he is absolutely lacking in strength to keep out of the clutches of Cupid.

The last fair charmer was an unusually pretty Washington girl of the sweet sixteen type, and the major felt for a time that he was a sure winner, but he was badly left at the wire.

Some time after the sad event and when the major, whose recuperative powers are famous, was convalescent he was talking with a friend—a Star reporter—on the subject of ladies and society and that sort of thing.

"By the way," said the friend, "you don't go out as much as you did?"

"Well, now," responded the major, attempting to dodge the issue, "you see I've retired, so to speak."

"Given up society entirely?"

"No, not exactly, but heading that way."

"But there was one place that caught you quite frequently. What has become of that?"

The major smiled reminiscently and began to recover his spirits.

"Oh!" he laughed. "She was a pretty girl, wasn't she? You know, I liked that girl."

"So I heard. Why did you give her up?"

"We differed on the 16 to 1 question."

"Great Scott, major!" exclaimed the friend. "You don't mean to say you let a political issue interfere with a love affair?"

"Well, no; not exactly," hesitated the major. "You see, she was 16, and I was one who was old enough to have known I hadn't a ghost of a show."

"And now?" queried the friend.

The major drew himself up proudly, almost youthfully.

"Thank heaven," he smiled, "I wasn't too old to learn."—Washington Star.

Heart Disease Cured.

WHEN a well known minister after suffering for years with heart disease, is cured, it is not surprising that he should publish the fact for the benefit of others. Rev. J. P. Smith, 1045 Fulton St., Baltimore, Md., writes: "For years I suffered from a severe form of heart disease. I used Dr. Miles' New Heart Cure, and my heart is now in good condition. Recently, other ailments came upon me. There was burning, painful sensations on top and back of my head. Fifteen minutes reading would make me almost wild; there were pulling and drawing sensations in my legs all the time, so that I could not sit still. In this condition I began taking Dr. Miles' Restorative and its effect was simply wonderful. I heartily commend your remedies." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants.

Deafness Cannot Be Cured. By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, 75 cents. Hall's Family Pills are the best.

Will Remove To Scottsboro. Dr. E. R. Orvis, of Seymour, will soon remove to Scottsboro, and make this place his future home and give our citizens the benefit of his professional skill. THE TIMES-STAR, Cincinnati, O.

John R. McLean's Great Newspaper.

Without a single exception, there is no doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; and no more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

Inauguration Business.

Inauguration business of the B. & O. was not as large this year as it was four years ago, and the same holds true for the other railroads. From all that can be ascertained the B. & O. handled more people into Washington than any other railroad entering that city, and General Passenger Agent Scull has figured that 34,000 tickets were sold. Of this number fully 8,000 were sold in Baltimore on the morning of March 4th. D. F. Maroney, superintendent of transportation reports that commencing on the morning of March 1st and ending at 3:30 p. m. March 4th, exclusive, the B. & O. ran into Washington 154 scheduled trains with 125 extra cars, and 108 special trains with 771 cars.

THE MAJOR'S ROMANCE.

It Turned on Sixteen to One, but Was Not Political.

Major Culpeper is not his name, but that will suffice for the little romance involved.

He is a courtly old bean of Virginia breeding, and he is also a courtly old bachelor, quite old enough to know better, and he does know better, but with him knowledge is not power, and he is absolutely lacking in strength to keep out of the clutches of Cupid.

The last fair charmer was an unusually pretty Washington girl of the sweet sixteen type, and the major felt for a time that he was a sure winner, but he was badly left at the wire.

Some time after the sad event and when the major, whose recuperative powers are famous, was convalescent he was talking with a friend—a Star reporter—on the subject of ladies and society and that sort of thing.

"By the way," said the friend, "you don't go out as much as you did?"

"Well, now," responded the major, attempting to dodge the issue, "you see I've retired, so to speak."

"Given up society entirely?"

"No, not exactly, but heading that way."

"But there was one place that caught you quite frequently. What has become of that?"

The major smiled reminiscently and began to recover his spirits.

"Oh!" he laughed. "She was a pretty girl, wasn't she? You know, I liked that girl."

"So I heard. Why did you give her up?"

"We differed on the 16 to 1 question," "Great Scott, major!" exclaimed the friend. "You don't mean to say you let a political issue interfere with a love affair?"

"Well, no; not exactly," hesitated the major. "You see, she was 16, and I was one who was old enough to have known I hadn't a ghost of a show."

"And now?" queried the friend.

The major drew himself up proudly, almost triumphantly.

"Thank heaven," he smiled, "I wasn't too old to learn."—Washington Star.

Why He Laughed.

The thin man laughed immoderately and the fat man naturally wanted to know the occasion for it.

"Why, every time I see you," explained the thin man, "I think of the remark my boy made."

"What was it?" asked the fat man rather doubtfully, as if uncertain as to the wisdom of making such an inquiry.

"He wanted to know if you were the baby elephant."

"If I had a boy who didn't know any better than to make fun of a man because he was fat, I'd thrash him," asserted the fat man, with some emphasis.

"Oh, so would I," returned the thin man promptly. "I know how sensitive fat men are as to their size, and I would have walloped the boy if I had thought he was referring to that, but I know he wasn't. You see, when he made the remark he was looking straight at your ears."

If the fat man had not been constitutionally lazy, the thin man would have had to fight or run.—Chicago Post.

The Pope's Army.

The present army of the pope is composed of five bodies, the Noble guard, under the command of Prince Altieri, consisting of about 50 young men; the Swiss guard, numbering 100 young men; the Palatine guard, numbering about 100 privates and 17 officers; the gendarmes, numbering 100 men, and the firemen, who are classed as soldiers, partly because they are in a state of chronic feud with the Swiss guard. The pontifical army has also an official newspaper, published weekly, edited by ex-pontifical officers, under the patronage of the so-called minister of the army and entitled La Fedelta Cattolica (Catholic Loyalty). It publishes deaths, promotions, changes, but of course for 86 years has not been able to record acts of valor.—New York Tribune.

An Eskimo Child.

A little Eskimo child will bite through the skin of a walrus as easily as an English child will bite an apple, although the skin of this creature is from half an inch to 1½ inches in thickness and very much resembles an elephant's hide, and not only bite it, but swallow it, and yet not suffer from indigestion.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y.
